Resistance grades II, III

Euroline transfer safes

INTTRA

The Stacke system for the intelligent transfer of money and valuables

VdS tested + certified in accordance with the European standard EN 1143-1. Resistance grades II, III

Made in Germany, highly qualified work in production and by skilled staff.

EL 50. (80.)110/130 CTS ECS HS

External dimensions:
800 x 550 x 692 mm (hxwxh)
Internal dimensions:
700 x 450 x 443 mm (hxwxh)
Weight: approx. 424 kg,
volume: approx. 130 l

Characteristics and technical features:	System design in 2 sizes, transfer doors on both sides. Only 50 mm thick, therefore optimal useful space and lowest-possible weight. Available as an "indoor" or optionally as an "outdoor" version with weather-proof wall connection and insulated outside wall door, zinc-coated, varnish-coated.
Lock:	1 electronic code lock each as sluice lock with interacting lock, bolt and door position contact. Optionally: With switching unit for armed/disarmed function for connection to a burglary alarm system.
Burglary alarm system :	Prepared for connection to a burglary alarm system according to VdS, excluding the proper components of the burglary alarm system. Optionally: Alarm package with all messages.
Anchoring:	4-fold, prepared for (but without) tear-off alarm, pins included as standard.
Equipment:	Optionally: Rail skeleton for 2 (3) paper money containers with slide guide. 2-3 LZB paper money containers of aluminium, stackable with seat for electronic transport protection, 2 fall handles, GS tested.
